SUMMARY

Computer Science student with a strong interest in AI and Machine Learning. I have successfully completed my first year of study, achieving good results while building a solid foundation in programming and computer science. I enjoy learning new technologies and solving problems, and I am now starting my second year with a strong curiosity to develop my skills further. I am also looking for an internship opportunity where I can gain practical experience, learn how technology is used in real-world situations, and grow as a developer.

EDUCATION

Royal Holloway University of London

Bachelor of Science in Computer Science Sep 2025 - Jun 2028

- **Year 1 Coursework:** Programming, Algorithms and Data Structures, Computer Systems, Mathematics for Computer Science, Software Development, Web Development, Databases
- **Year 2 Coursework:** Software Engineering, Team Project, Algorithms and Complexity

EPRAL, Portugal

Diploma in Computer Programming Sep 2021 - Jun 2024

- Coursework: Programming, OOP, Web Development, Databases, Software Development, Computer Systems

EXPERIENCE

Recicloteca Lda, Évora, Portugal

Intern March 2023 - July 2024

- Troubleshot software and printing issues, identifying problems and finding practical solutions.
- Updated and maintained static websites using HTML.
- Organised digital files and assets to keep projects and resources structured.
- Worked with system configurations and basic design tools to support day-to-day technical tasks.
- Gained practical experience working with technology, troubleshooting issues, and learning new tools in a real work environment.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL, HTML5, CSS
- **Core CS Knowledge:** Object-Oriented Programming, Data Structures and Algorithms
- **Other Skills:** Problem Solving, Java Database Connectivity, Git, Front-End Development

PROJECTS

AI-Based E-Commerce Recommendation Website Jan 2026

- Developed a Python application to manage student records using CRUD (Create, Read, Update, Delete) functionality.
- Used data structures and file handling to store, organise, and manage student information.
- Designed a simple menu-driven interface to make the application easy to use and navigate.
- Applied problem-solving and programming concepts to build and improve the application.
